

## Farm Explorers

Younger children use their five senses to explore what the Farm has to offer. Children will explore the gardens with magnifying glasses in search of insects, harvest basil and tomatoes for homemade pizza, and use sheep wool to create a unique piece of art. Each day is filled with unique farm-based experiences that change according to what is in season.

**Pre-K through entering 2<sup>nd</sup> grade**  
**Farm Explorers come for a half day of learning and fun: 9 am – 12 noon**

## Junior Farmers

Older children explore the food system, ecology, and rural arts through inquiry-led and experientially based lessons. Each day centers around a theme related to what is happening on the Farm at that time. During blueberry-picking season students will harvest blueberries, make a blueberry pie, and learn about pollination and the parts of a blueberry bush.

**Entering 3<sup>rd</sup> grade through entering 6<sup>th</sup> grade**  
**Junior Farmers spend a full day exploring and learning: 9 am – 3 pm**
