

# Maple Syrup

## Preschool and Kindergarten

*Our lessons are focused discovery allowing for rich explorations mixed with structured activities and address the Connecticut Preschool Framework in Cognitive Development - Logical, Mathematical, Scientific Thinking.*

### Children will ~

- Listen to a story about maple sugaring
- Learn how to identify maple trees
- Visit maple trees & taste sap as it comes from the tree
- See the place where sap is made into maple syrup
- Make maple butter to bring home
- Sample pancakes with real maple syrup  
(additional charge, see below)

The maple syrup lesson provides opportunities for children to express wonder, ask questions and seek answers about the natural world, and to recognize and solve problems through active exploration.
